Keyboard options

Keyboard options specifically for JMK "Point Of Sale" and accounting application use:

The majority of keyboard usage is in Order Entry for order generation and/or price quoting.

Keyboard option 3 is specifically geared to automating Order Entry program usage.

1. **Supply your own**
2. **JMK Supplied Light Commercial keyboard**
3. **JMK Supplied Light Commercial keyboard with Order Entry specific pre-programmed HOT keys.**

Option 1: Supply your own

You can supply your own keyboard. Any standard PC keyboard will work with the JMK system.

Advantages:

1. Low initial cost
2. Flexible design to allow you to pick what you like
3. Available in multiple color or style options for best fit

Disadvantages:

1. Tend to be lower duty cycle and may be designed for home use
 - a. Less durable key mechanism, which can lead to user frustration and potentially inaccurate entry information
2. Does not allow for programmed keys (one stroke entry for "Point Of Sale" screen options), which adds to the potential for user keyboard error at the "Point Of Sale" counter.
3. Typically tactile feedback less positive than commercial keyboards.

Option 2: **JMK supplied**
LIGHT COMMERCIAL keyboard

Advantages:

1. Excellent tactile feedback keyboard with:
 - a. Affirmative audible key response
 - b. Very durable keyboard entry
2. Should give multiple years of use without the need for technical service
3. Available in BEIGE or BLACK, for best style
4. JMK one-year replacement/exchange warranty

Disadvantages:

1. Cost \$ 85 each for BEIGE \$ 99 each for BLACK
2. Does not allow for programmed keys (one stroke entry for "Point Of Sale" screen options), which adds to the potential for user keyboard error at the "Point Of Sale" counter.

Option 3: **JMK supplied**
LIGHT COMMERCIAL keyboard with
Order Entry specific pre-programmed HOT keys

Specially designed Order Entry application keyboard for ease of use during the order generation and price quote process.

1. JMK/KYP02 -
 - Call for cost
 - modern design, 17.5" x 7" x 2"

Advantages:

1. Allows for ONE STROKE entry of popular **Point Of Sale** screen options, with programmable keys.
Saves typing at **Point Of Sale** counter -9to minimize user entry errors and simplify usage on the system.
2. Excellent keyboard tactile feedback with:
 - a. Affirmative audible key response
 - b. Very durable keyboard entry
3. Should give multiple years of use without the need for technical service
4. Available in BEIGE or BLACK, for best style
5. JMK one-year replacement/exchange warranty

Disadvantages:

1. Initial cost

Credit card reader optional.
